Jeff:

The map parcel lines appear to be off for the site. Is the parcel layer tied?

Gary

Subject: FJ Doyle

Gary,

See attached draft map and property owner table. It looks like FJ Doyle site fenced in and used City ROW property as part of their operation (see screen capture below). Jason converted the east side of FJ Doyle back to ROW property, which is correct according to Fannin CAD data. You can see the fence line on Google Street View. I did not extend east of Poplar Street but probably should do so as there are some small ROW and/or school green spaces? Possibly north of Cottonwood as well.

Let me know when you have time to discuss.

Thanks,

Jeff Criner
